ZMAX™ Forged to Last!

- Forged ZAMAK Alloy Head!
- H-Low Threads for Max Holding Power!
- Concealed Washer

ZMAX™ alloy head fasteners are engineered and developed for high corrosion applications. ZMAX™ offers a larger outer head diameter to prevent wind uplift and suitable in high snow load regions. Ideal for coastal environments, preventing Red Rust on fastener heads once installed into metal building systems. ZMAX™ is the Forged Long-Life fastener of choice by contractors and builders!
